

Residential summer sewage rates start with the **July billing** for **June consumption**.
Actual start date will depend on when the meter is actually read.

62, 63, 64	5/31/11	9/29/11	32, 99	6/13/11	10/13/11

Remember this is for **residential single family or duplex housing** accounts only.
Multi-family and Commercial accounts do NOT receive summer sewage rates.

Sewage consumption is **capped** at what the customer averaged over the winter months (Nov. thru Feb. consumption). If they use less, then it will be the lesser amount.
If a customer just moved in, then this year's summer sewage is based on half of the summer water usage.

It is important for the customer to know that the sewage does NOT cost less in the summer.
It is still a base cost of \$3.26 plus \$4.35 per 1000 gallons consumed. The difference is that the number of gallons of sewage that we bill is based on the winter average, not the actual summer consumption, unless it is less than the average.
